Describe the watershed or aquifer, number of acres, current land use, and presence of wetlands, rivers, streams, ponds. Also state whether it is valuable for recreation, forestry, wildlife, other natural resources, or stormwater management. State whether the property to be purchased with grant funds currently is or will be (1) classified as Class I or II watershed land as described in CT General Statutes 25-37(c) or eligible for such classification, or (2) subject to a permanent conservation easement. State how the fund will be used; outright purchase of property, purchase of a conservation easement or similar device, or the purchase of property and eventual resale with easements or land use restrictions.

Note that grants are made only for the purchase of an interest in land; associated transaction costs are not eligible for grant funding.
